Mr. Alfred R. Pulyan

I have your address from Mr. McIntyre of Santana California. I consider Mac to be very conservative about recommending anyone to subscribe to anyone or anything....so I feel that I may have much to gain from writing to you.

I like to tell people that I am a seeker after Truth, or The Truth. I have been pretending thus for several decades, being 43, but as yet I do not know what the Truth is so cannot even say that I know that for which I am seeking. I have explored many religions and cults, -and a couple secret organizations. Am still riding the horns of the ~~ya~~ dilemma that follows trying to weigh one against another.

Mac says that you pursue expansion of consciousness. Although I have come to look upon reason as the vanity of the intellect (mind) still when it comes to checking a movement to see if I want to put my entire life's energy into the quest, --I find myself using or trying to use reason to qualify it.

I will be glad to correspond with you if you think it no great ~~waste~~ waste of time for you, and will furnish any information about myself that you wish. Also request at this point that you brief me a bit on what you are about. Mac was not specific and since I know that he looked into many movements, I do not know too much except that he places you in a position that is of benefit to sincere students of the Truth.

I am enclosing an envelope to expedite reply.
