

It is not a matter of "ignorance" & "authority."

I am imposing nothing on you & expect nothing of you.
But you wrote me & I have no earthly way of knowing

→ what you desire as proof? You never tell me. ←

The "Supreme Court" has established clear rules of evidence
& in law what is admissible & what is not
admissible is clearly codified.

SAY? But you wait to hear ANYTHING WHATSOEVER
that is said & automatically (& correctly) reply

"myet" (NO!), "Doubt" in you is more than scepticism. It is a "quest".

DONE? Then if you see something done what is that to
you? Is that what you want? Miracles? Wonders? "Signs"?

A little levitation?

One of my letters appearing under your plate
without coming through the mails?

A vision?

WHAT?

→ What would you regard as "proof"?

Please include a stamped addressed envelope.

A mere psychotherapist who talks to you for
5 years (or you to him) may cost \$6,500 or
more. (say \$25 a week). So .04 is still
cheap & I don't get it as revenue. Uncle Sam gets it.

|| If it isn't worth that to you then the
thing for you to do is obvious. But have
the decency to write a pleasant last letter
& say good-bye like a human being.

Friend,

Al.
